# CHARGING STATION 32A 9X 230V

Energy, Light & Air

Maximum 32 amps

9 automatic reels

Simply movable

## New in the fleet!

## **CHARGING STATION 32A 9X** 230V

Mobile charging station with 9 cable reels of 10 meters of cable each. Up to 9 machines can be charged simultaneously on these cable reels. The charging station uses a Load Balancer, which ensures that the electricity is optimally distributed over the 9 cable reels. If a cable reel is in danger of being overloaded, it is temporarily switched off. In this way, all other connected devices are still supplied with electricity.

This intelligent system keeps the energy supply intact and ensures that all connected machines are charged. As soon as a machine is fully charged, the system switches off the cable reel in question.

Maximum 32 amps

9 automatic reels

Simply movable

#### **Technical data**

Rental Number Power supply Exit

558110 1 x device plug 32A 5-pin 400V 9 x wall reel 10m H07RN-F 3G2.5 loadable up to 3600W

0,69

079 180

Cabinet equipped with load balancing per phase

Cable reels turn off automatically when machine is fully charged

9x automatic reels with 10 meters of cable 2.5mm<sup>2</sup>

Can temporarily disable individual cables

#### Dimensions

Length (m) Width (m) Height (m)

Maximum load 32 amperes

Equipped with LED indicators

Easily movable
